12 ABSTRACT OF THE DISCLOSURE:

13 A three-component, protective headgear or helmet is provided  
14 with a battery-powered LED head lamp, which may be used by  
15 construction workers, search and rescue persons, cyclists,  
16 police, fireman, and the like. The battery may be replaceable or  
17 rechargeable and has long-term, uniform output characteristics  
18 driven by unique circuitry.
